

**INVITATION TO SPONSOR
BSIDES VILNIUS 2026**

INTRODUCTION

Thank you for your consideration to support BSides Vilnius 2026. This means a lot to both the cybersecurity community and to our team. We aim for an inclusive and accessible event, organized by the help of community.

The following slides outline the idea of the upcoming BSides Vilnius 2026 conference, summarize the key highlights of the previous event and present the support options. We are also open for discussion about any other way of support that is not listed in the proposal.

Sincerely,
BSides Vilnius Organizing Team

BY COMMUNITY, FOR COMMUNITY

By Community

Organized by the cybersecurity community members – non-governmental organization BSides Vilnius, VšĮ and event volunteers. All organizers work free of charge.

Accessible and Inclusive

We believe that a strong cybersecurity community is essential for the resilience of our country and individual companies. We aim to make the event accessible to every member of the community.

Independent and Supported by Those Who Care

The presenters are reviewed by the independent review board to ensure quality and independence. 10 sponsors supported the event in 2025.

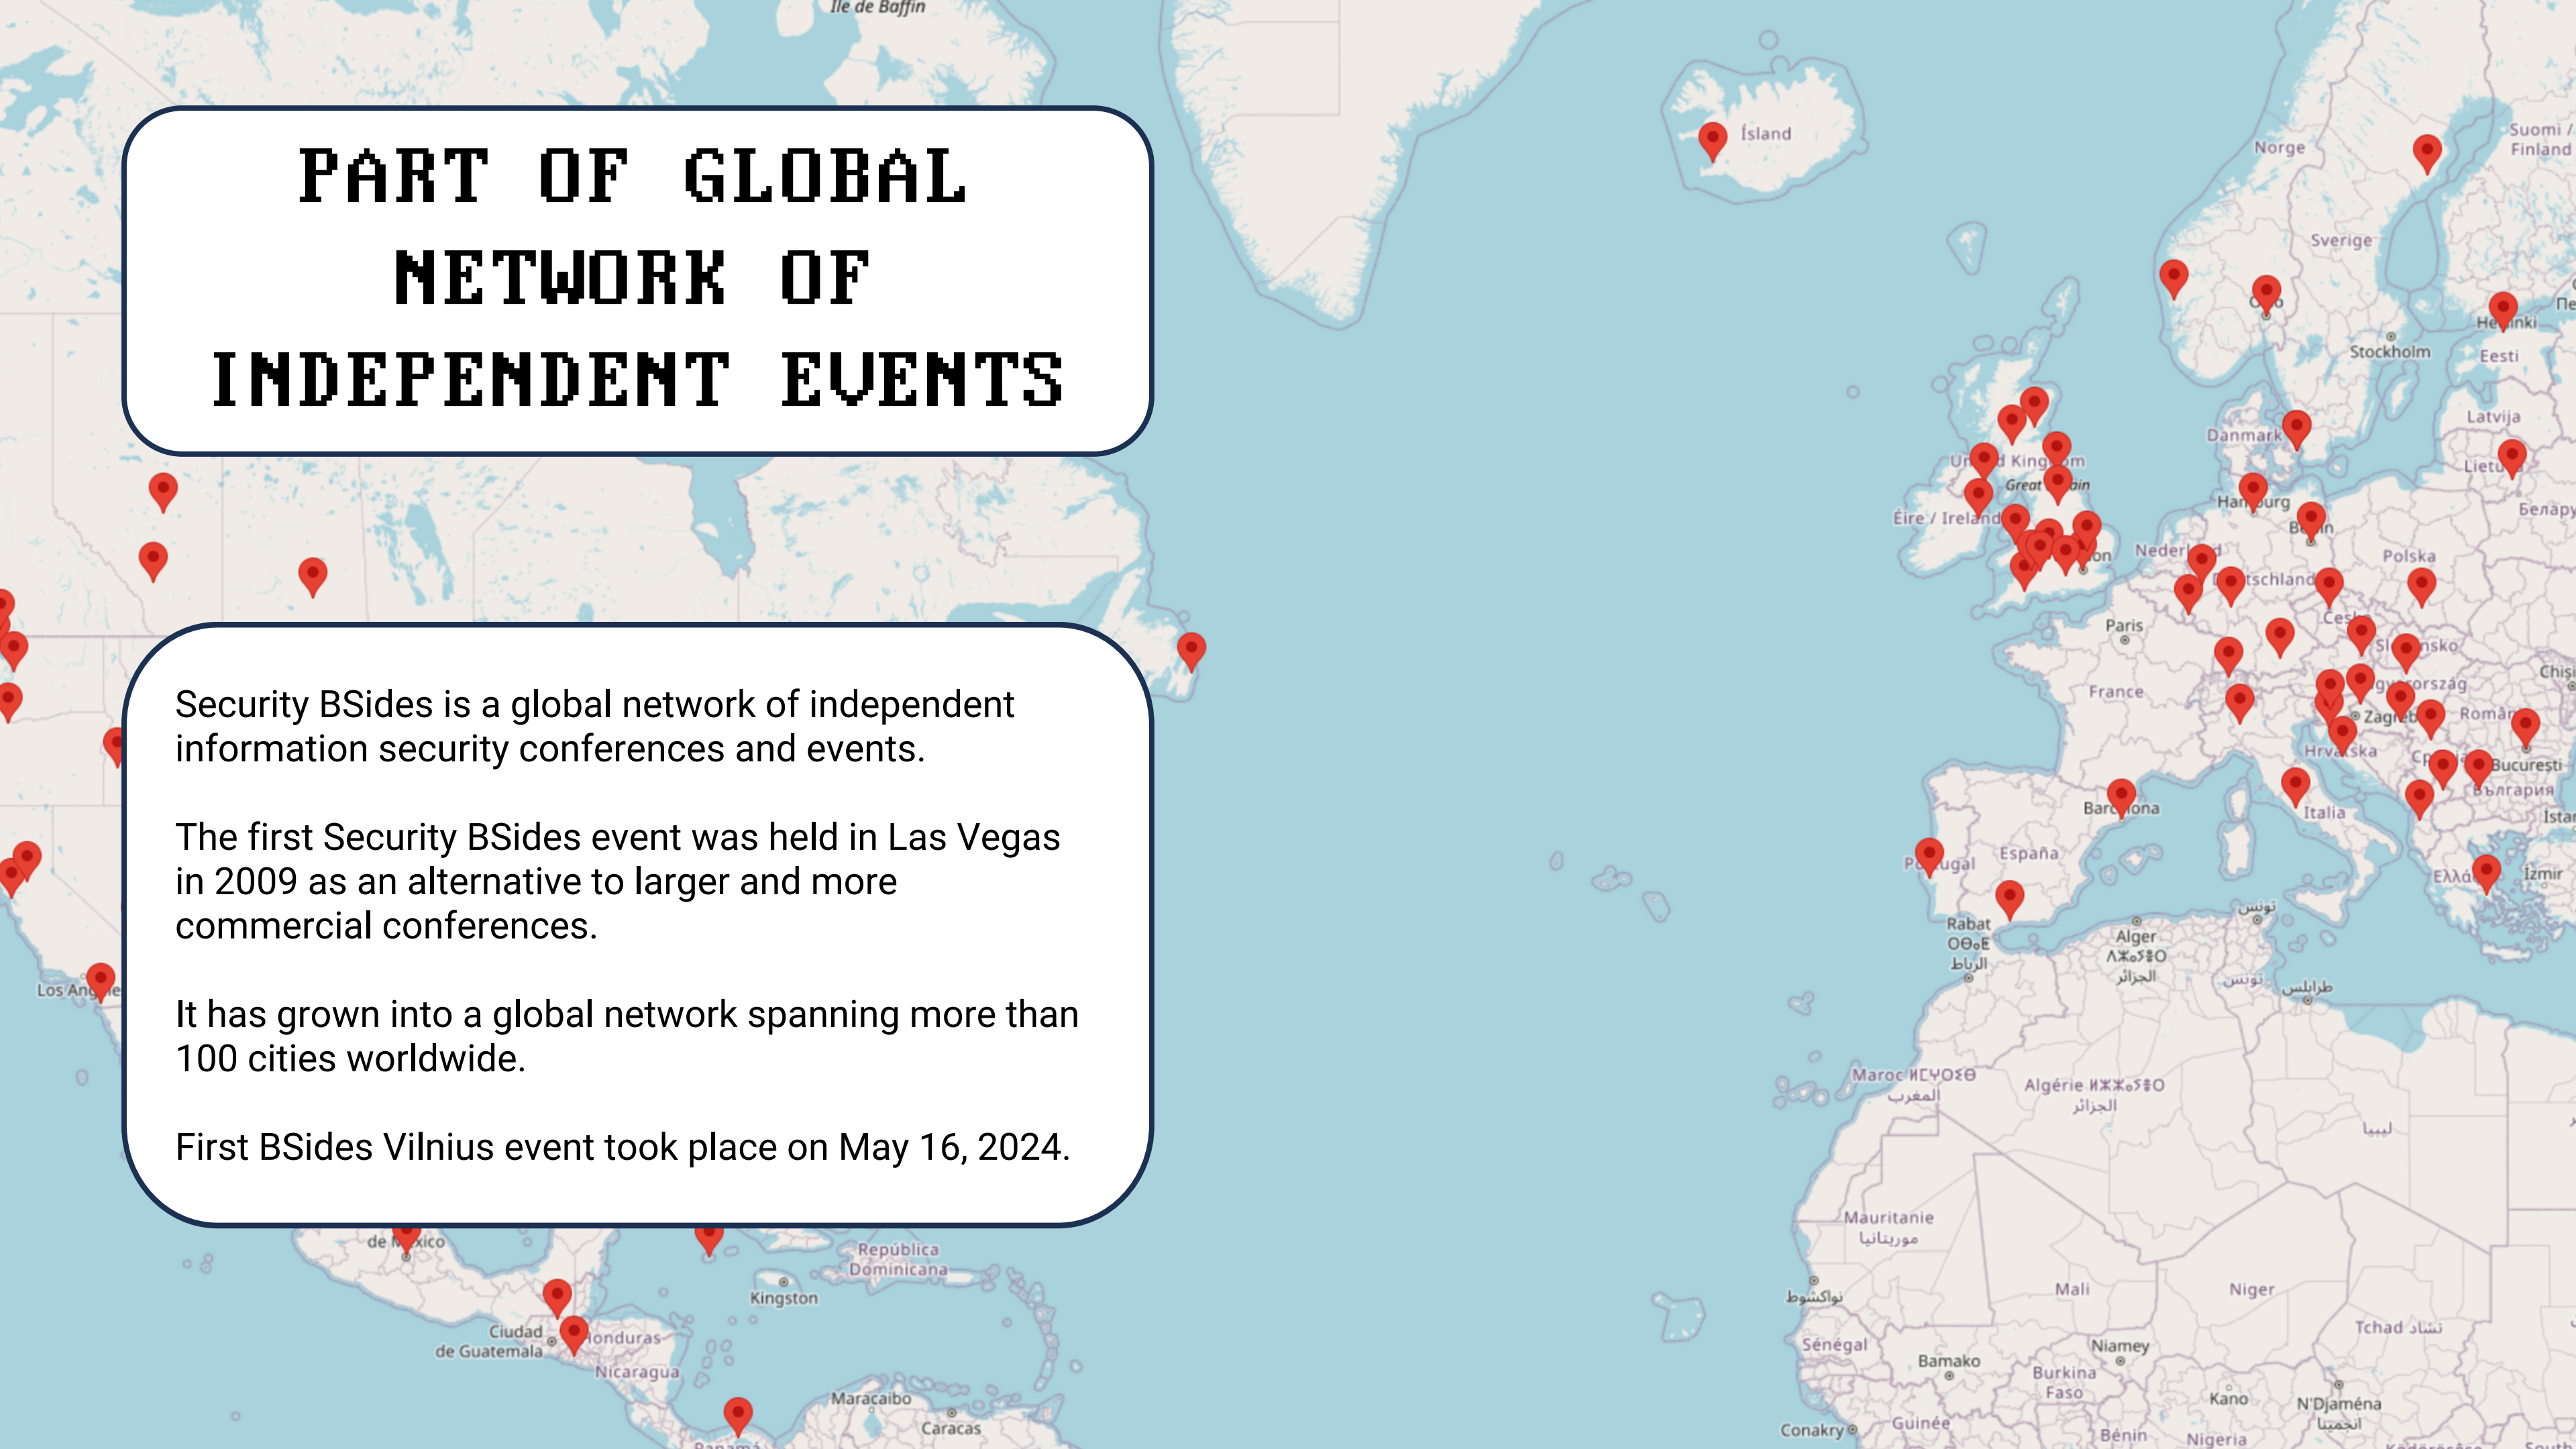

PART OF GLOBAL NETWORK OF INDEPENDENT EVENTS

Security BSides is a global network of independent information security conferences and events.

The first Security BSides event was held in Las Vegas in 2009 as an alternative to larger and more commercial conferences.

It has grown into a global network spanning more than 100 cities worldwide.

First BSides Vilnius event took place on May 16, 2024.

BADGES

Badges are at the heart of many security conferences. At BSides Vilnius, we put a lot of effort into creating unique badges that are not only an important part of the event, but also a piece of art - something attendees like to keep as a souvenir after the conference.

As a Gold Sponsor, you can place your logo on the badge, giving your brand lasting visibility on an item that people wear during the event and keep afterward, without it feeling like a sales pitch.

NON-FINANCIAL SUPPORT

We welcome non-financial support which may include:

- Facilitating technical hands-on workshops
- Creating Capture The Flag competition challenges
- Support of design and manufacturing of hardware for the event badge
- Sponsoring of specific aspect of the conference, e.g. audio/video equipment, food or venue

**Thank you for your
consideration to
support
BSides Vilnius 2026!**
